

# Snow Sense

## Members

- Tarakant Seth - Frontend Developer & UX/UI
- Malte Braig - Web Scraping Engineer, Full Stack
- Kacper Słoniec - Web Scraping Engineer, Data Engineer
- Venuri Wijekoon - Recommendation System Engineer

## Background

To keep Ftt and snowcard owners updated on the ski resort in the area.  
malte

## Objectives

Make a notification system to keep Skiers informed and recommend resorts based on current Info

Tarakant Seth

Recommendation:

- where its better to ski
- weather

Tarakant Seth

Webscraping for data of resorts

Tarakant Seth

## Results

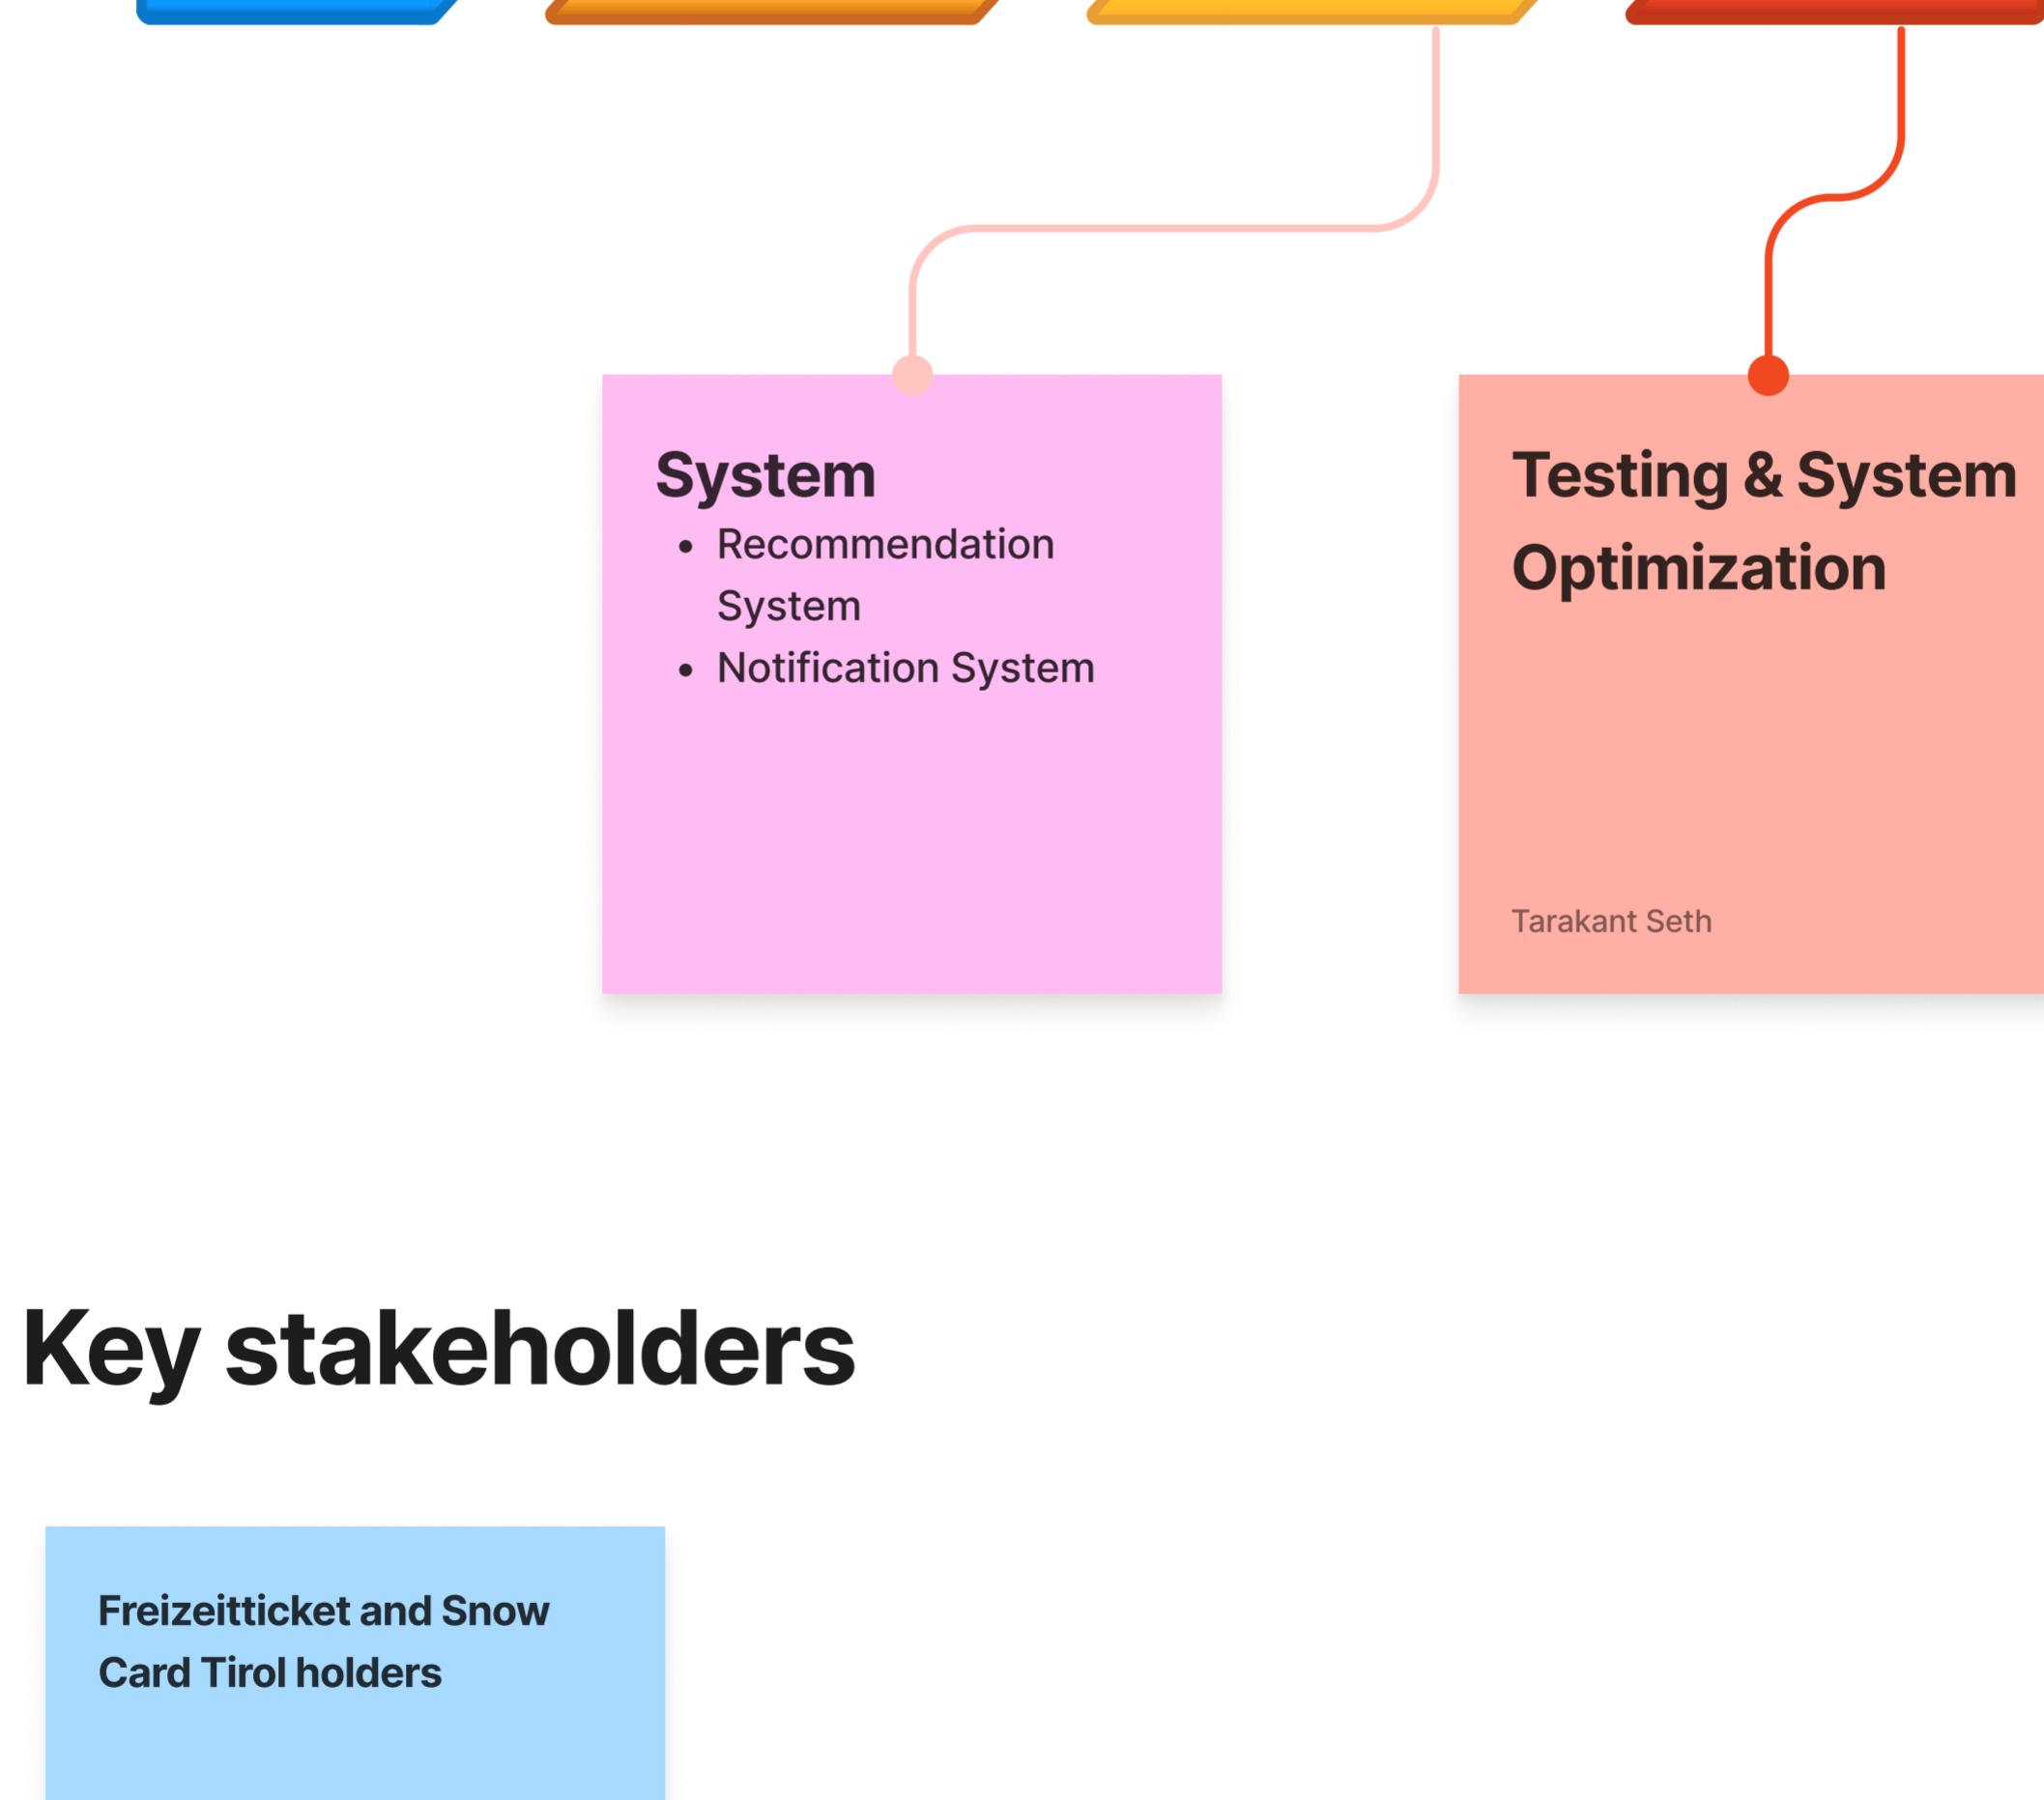

Mobil App with Push notification

V.S Wijekoon

Recommendation with the ski resorts and weather

V.S Wijekoon

## Timeline

## Key stakeholders

Freizeitticket and Snow Card Tirol holders

Kaslo

• The app will be tested on mobile devices to ensure compatibility

• Success will be measured by app stability and user feedback

• Evaluation tools include code reviews.
